# AREA 52

*"Area 52 is the name of this special lecture, because i was inspired by the "Area 51", one special and secret place in the state of Nevada (USA), this place was very near where i was preparing this lecture, one place with a lot of unsolved mysteries.*

*Although in this lecture, i will not discover any of these mysteries, i invite you to walk around my "Area 52", where you will discover some of my mysteries with one deck of cards (some of them were part of my multi-award act), and one of my favorite close-up routine, known as Dice Stacking in Mexico.*

*Beside of all of this, i will share all that i learned these last years as performer in one of the largest magic productions, and as consultant of the famous magician Criss Angel in Las Vegas"*
